

ABUSE OF SNOOKER RULES

" The ABSR has noticed recently that Snooker events are being proposed to be conducted with the deletion or changes to certain official rules. This practice is not condoned by the ABSR nor will it be supported. It is hoped that any person adjudicating in any match under these conditions will uphold the integrity of the sport as it is intended regardless of their qualifications. In particular and in reference to the 'Foul and a Miss' rule, behaviour considered not in the best interest or spirit of the game must be addressed so as to maintain acceptable standards within the sport."
